Creating a community of allies

Think of a time when your student growing up felt not included. What did you do to support your student?

What would you do if your student called you and told you they overheard someone making an offensive comment? How would you support your student in being a community ally?

Continuing the conversation

1. What are some ways our family is lucky or privileged?
2. What are some ways we have experienced hardships?
3. How would you respond if you saw someone being made fun of or disparaged because of who they are?
4. What are you most excited about in terms of meeting new people?
5. What are you most nervous about in terms of meeting new people?
6. How can we continue these discussions so that we can learn together?
