Best Undergrad College Degrees By Salary

Choosing a major can seem like an insurmountable task. Will your college degree lead to a job you enjoy? Will your college degree lead to a job at all? Will the job pay well? These questions sometimes prompt students to switch majors several times during their college career. Well, we've attempted to take some of the guesswork out of the process. Take a look at our list of best college degrees by salary to see which majors tend to lead to high-paying jobs.

Top 10 College Majors That Lead to High Salaries

Religion	\$34,100	\$52,000

Methodology

This chart is based upon PayScale Salary Survey data for full-time employees in the United States who possess a Bachelor's degree and no higher degrees and have majored in the subjects listed above. These results may not represent all graduates with these degrees. All colleges and universities across the nation were included. As a result, median salary figures may be skewed toward large state universities, since these schools have the largest attendance. Salary is the sum of compensation from base salary, bonuses, profit sharing, commissions, and overtime, if applicable. Salary does not include equity (stock) compensation. See [full methodology](#) for more.
