Please read the following note about the consent agenda for the October 7 Academic Senate meeting.

_____

SEMESTER CONVERSION CATALOG REVIEW

Following the practice implemented in previous years, summaries of all course or catalog proposals sent by the Academic Senate Curriculum Committee to the Senate for consideration are posted on the web. Every senator is expected to review these proposals as well as the accompanying recommendations of the Curriculum Committee. Semester conversion catalog proposals submitted by the following departments/programs are identified in their respective college summary in the Curriculum Handbook under "Status of Proposals." A special program status page for semester conversion can be found here. The following item has been placed on the Consent Agenda:

College of Agriculture, Food and Environmental Sciences

- Food Safety Principles Minor (NEW)

To view the proposal for this program, go to the Curriculum Management portlet (My Cal Poly Portal - Academics tab - Curriculum Management). Select the Program Management link to search for this program.

Issues, concerns, and questions regarding a curriculum proposal should be directed to John Walker, chair of the Academic Senate Curriculum Committee. If the concern is strong enough, any senator may request an item to be removed from the Consent Agenda **by September 30, 2025**.

Pursuant to the curriculum appeals process adopted by the Academic Senate on May 4, 2010, "Items removed from the Consent Agenda will be placed on the Senate agenda as discussion items. The Senate Chair (or designee) will invite representatives from the concerned departments and the Academic Senate Curriculum Appeals Committee to be present at the meetings where pulled proposals will be discussed. Following discussion in the Senate, the Academic Senate Curriculum Appeals Committee will make the final decision to approve, disapprove, or return the items to committee (at any level) for further development. Items not removed from the Consent Agenda are considered approved on the meeting data of the Consent Agenda."
