5. Evaluation Processes

5.1. Summary

5.1.1. This chapter defines all the evaluation sequences allowed for any sort of faculty evaluation currently used by all the colleges. Standard and familiar evaluation processes include lecturer evaluations and the periodic, retention, promotion, and tenure evaluations of tenure-track faculty. Each of these processes consists of a sequence of different levels of evaluation. The levels of evaluation were defined in Chapter 4, as the responsibilities of various evaluating bodies, such as department and college peer committees, department chairs or heads, or administrative evaluators. University-level definition of these processes allows for colleges to formulate their policy and procedure documents using common definitions of these processes. The scope of the processes covered in this section includes all faculty evaluation processes including instructional faculty, library faculty, counselors, and coaches. Exceptions to the normal sequence of evaluation levels are also covered. Colleges must establish in their personnel policy documents which of the permissible evaluation processes they elect to use in their faculty evaluations.
