NOTES:

The ASCC met as needed, at least every other week, from 3-5pm on Thursdays during the quarter.

April 11, 2019. The resolution on the Blended Program was finalized, and we discussed if any changes needed to be made on the Minor's Resolution. The committee reviewed the new GE Template as well as CM 335 and CM 424.

April 18, 2019. A number of courses and e-Learning addenda were reviewed, including BUS 450, GSB 570, AGB 212, ES 430, ES 435, JOUR 345, PSY 100, ESE 105. Status can be seen in the table at the end of this report.

May 2, 2019. Andrew Morris presented a report on the work that the GE Pathways Committee performed. There was some concern that having only three courses was not sufficient, and that some of the requirements would be hard to code into the system. We reviewed TH 470/471, ECON 445, and also discussed how moving to a one-year catalog might proceed.

May 16, 2019. A student group from the Honors Program presented their results on the Sustainability Knowledge Survey and discussed ways to incorporate sustainability into the curriculum. A brief abstract is provided at the end of this report. The committee also reviewed ARCH 120, CM 318, and LA 521.

May 23, 2019. The committee reviewed the GE proposals for Areas A and B as well as the resolution to update the USCP Resolution. Additionally, we continued discussions about moving to a permanent one-year catalog cycle. Some of the main points:
- Almost all of the other CSUs are on a one-year catalog
- This would make us more "agile"

- It should spread out the work more evenly each year
- Could be confusing for students, and there could be difficulty coding everything
- Our current catalog rights are very generous – may want to restrict a bit more
- Current software system has some challenges for Program Edits

June 6, 2019. The committee reviewed AERO 455, CE 415, and CSC 549. Additionally, we discussed possible avenues for review of online courses. Different issues were raised:
- There was support to do both instructor and course "certification", but this was not unanimous
- Could allow the department or college to determine if the instructor is qualified to do an online course
- Certification body should be the group that specializes in this format – CTLT
- Maybe do a different e-proposal, and make it much less onerous than now
- Need to ensure accessibility
- Might want to do course redesign using QOLT

Additional activities
The Blended Resolution was passed by the Academic Senate. The Chair, Brian Self, sat on the Online Teaching and Learning Task Force.
The ASCC Chair, Brian Self, Associate Registrar, Susan Olivas, and GEGB Chair, Gary Laver, visited all of the College Curriculum Committees to discuss the upcoming catalog cycles, the new GE template and re-certifications, and to get feedback on a one-year catalog cycle. These meetings were well-received, and the slides and handouts are on the Curriculum Handbook web page https://registrar.calpoly.edu/curriculum-handbook

Sustainability Knowledge Survey Results and AASHE STARS

AASHE STARS (Sustainability Tracking, Assessment, and Rating System) is a self-reporting framework for colleges and universities to measure sustainability performance. Elements of the rating system focus on curricula and sustainability learning. In support of STARS efforts, a group of students is working with faculty from a number of departments and programs as well as staff from Cal Poly Facilities to assess sustainability knowledge and attitudes at Cal Poly. During their brief presentation, the group will share results of a survey completed by over 800 Cal Poly students. Primary objectives of the presentation are to share findings from the survey, build awareness and initiate further discussions of the work, and explore opportunities for collaboration and networking with regard to sustainability learning, instruction, and assessment. The group will share some of the survey data (electronically) prior to the meeting on Thursday.

As always, the status of different course and program reviews can be found at:
https://registrar.calpoly.edu/status-proposals

Courses reviewed during the Spring are shown below.

Note: The following courses/programs have been summarized by staff in the Office of the Registrar for review by the Academic Senate Curriculum Committee (ASCC) and Academic Senate.
