**<u>NOTES:</u>**

Regarding Orcid integration with Interfolio, we are still gathering information, but what we know so far is that Cal Poly is part of a pilot for OrCiD in the CSU, but the contract for the pilot is still being negotiated with the Chancellor's Office. There are modules/widgets that can link the two together, but not sure how well or if that works with our specific Interfolio subscription. There are other schools that have information about linking the two (https://web.uri.edu/provost/files/Faculty180-guide.pdf) so it is possibly happening, but it is not clear or readily present in our Interfolio.
