

2018 Survey of Agricultural Producers & Custom Operators **Self-Propelled Agricultural Equipment (any horsepower)**

Overview

- Production agricultural associations, in cooperation with the State of California, invite you to participate in a statewide survey to collect data on commodity information and self-propelled off-road equipment used in agricultural operations in California.
- **This survey is for agricultural producers and custom operators.** Agricultural producers are involved in crop, livestock, aquaculture, or nursery production, including custom operation for others.
- **All individual survey results will be kept confidential.** The survey should take about 20 minutes. Please complete and return the survey even if you do not own any equipment.
- **If you prefer to complete this online, the same survey is also available online at:**

Explanations

Double cropping

If you double cropped on your 500-acre operation, then you would put 500 acres for “Amount in Production” and then a “Y” under “Did you double crop”. This indicates that 500 acres were harvested twice.
