<u>Important Things to Note When Registering for Ag Showcase</u>

- If you plan to register for both days, you will need to fill out registration for each day separately.

- When you enter your mobile phone number during registration, you will receive a text message from Brazen. Reply "YES" to that text message if you would like to subscribe to receive notifications related to Ag Showcase from Brazen. You can opt-out of receiving these text messages anytime by replying "STOP" to the message thread.

- Once you've created a Brazen account and registered, you will have the opportunity to update your registration information. If you plan on updating your resume prior to Ag Showcase, you can do so after you have registered and can upload the updated version of your resume anytime prior to the start of the event.

- Brazen allows for the submission of ONE resume during registration that can be viewed by any company representatives you chat with during Ag Showcase. Because of this, it is recommended that you create a general resume to upload to Brazen. If you would like to tailor your resume to a specific company and/or employment position, please ask the representative of that company for their email during your chat with them and email your tailored resume to that representative individually.

- RECOMMENDATION: Watch the Virtual Event Guide video created by Brazen to get a general overview of how the platform works. This video can be found near the bottom of the Ag Showcase landing page.
