**Wheat2School Project Student Coordinator**

**POSITION:** Student Coordinator for the Wheat2School grant project located in Shandon and San Miguel, CA.

**START DATES:** August/September 2021. End Date: Flexible.

**HOURS:** Flexible hours. Must be able to work minimum 15 hours and maximum 30 hours/week. Note: most of the work will be done from home; however, we will schedule some visits to the schools.

**PAY RATE:** $16.00/hour

**DESCRIPTION:** The CWC received a grant from the CDFA Farm-to-Fork program with the broad goal of promoting greater access to whole grains and whole grain education in California. The grant partners include the Shandon and San Miguel school districts in northern SLO county, which operate in communities with inadequate access to healthy and fresh foods. Funds from this grant will aid in installing a grain mill at the Shandon Elementary School and pasta machines in both school districts. With assistance from the CWC, both schools will also begin growing their own wheat to increase their access to local whole grains. The goal of the Student Coordinator is to assist the CWC and partnering institutions in organizing and implementing the grain garden plots, creating grain education programs and lesson plans, and communicating with community partners. This may involve such activities as meeting with teachers to instruct them on maintaining the grain garden, ordering necessary supplies and keeping track of costs, and writing lesson plans that teach about wheat anatomy, cultural history, or nutrition. This is a Part-Time Position with flexibility in bringing in personal knowledge and interests to parts of the project.

**HOW TO APPLY:** Please send resume to carter@californiawheat.org.
