

August 2025

As California State Ambassadors representing the **National Society Descendants of American Farmers**, it is our pleasure share with you an opportunity for your students to apply for a **\$2000 scholarship!**

Students **need not be a member** of this society to be eligible.

The **National Society Descendants of American Farmers** was established with the following goals:

- To identify and honor the memory of our ancestors who were "farmers" **and living** within the present boundaries comprising the forty-eight (48) contiguous states of the United States of America between July 4, 1776 - December 31, 1900.
- To collect and preserve records, documents, and relics pertaining to the history and genealogy early American farmers.
- To produce and distribute publications relating to the history and genealogy of these farmers.
- **To encourage study and inspire an appreciation of the rural and country life led by our ancestors.**
- To engage in related educational, historical, genealogical, patriotic, literary, and social activities.

As a college professor myself, I am keenly aware that many students face financial hardship while pursuing their educational goals– we can help! *We are descendants of early farmers in multiple states*, and we are deeply committed to supporting and bringing attention to California farmers, and agricultural students in California colleges.

Please share this link (www.nsdoaf.com/scholarships) to our scholarship application with your students, peruse our National website (www.nsdoaf.com), and reach out to either one of us with any questions that you may have. **Our next scholarship deadline is just around the corner on October 31, 2025.**

In support of today's and tomorrow's California farmers,

Chris and Sue
