

Office of Regulatory Affairs (ORA) Office of Human and Animal Food Operations (OHAFO) Investigator (Human and Animal Food) - Title 21 Band A/B

Protecting, promoting, and advancing the public health

Investigator (Human and Animal Food)

- As an Investigator in the Office of Human and Animal Food Operations (OHAFO), you will be responsible for conducting regulatory inspections and in-depth investigations of various industry establishments, such as manufacturers, re-packers, own label distributors, and importers.
- Investigators independently plan and conduct regulatory inspections and in-depth investigations of various industry establishments.
- Investigators conduct inspections and sampling at human and animal food facilities to ensure compliance with Federal laws, rules, and regulations.
- Investigators interact with and advise various levels of officials representing the establishments subject to regulatory review.
- Investigators prepare final Establishment Investigation Report (EIR), investigations memorandum, and proposed or final endorsements for inspections, investigations.

FDA Human and Animal Food Investigators add value by:

- Evaluating and making recommendations on the state of compliance of a firm/individual involved in human and animal food or other FDA regulated product manufacturing.
- Having a direct impact on protecting and promoting the public health and safeguarding pharmaceutical products.
- Conducting outreach activities with industry associations for training, sharing of current industry trends and agency policy.
- Participating in work groups to continually improve our office, processes, and relationships.
- Interacting with industry and foreign government officials during inspections and international conferences.

Investigator Qualifications

- A bachelor's degree or higher in quality assurance/management, data science, statistics, computer forensics, epidemiology, pharmacy, public health, engineering, food science, law or regulations, or related healthcare or science field. The degree must be from an accredited program or institution.
- Comparable experience with FDA, a state or federal partner agency, or in an FDA-regulated industry or organization providing investigative or compliance services to an FDA-regulated industry, focused on evaluating or ensuring compliance with FDA or related public health laws and regulations.
- Position requires travel up to 50% of the time to various manufacturing sites across the US.
- Candidates must have a valid driver's license to drive a government or privately owned motor vehicle.
- Candidates for this position must complete a statement regarding their physical ability and may be required to undergo physical examination because the position requires walking, bending, stooping, kneeling, and climbing as well as the need to meet vision, hearing, and olfactory requirements.

Investigator Salary (Title 21 Band A/B)

The Title 21 Band A annual salary starts at \$78,592.

The Title 21 Band B annual salary starts at \$94,199.

Department of Health and Human Services (DHHS)

Become a part of the Department that touches the lives of every American. At the [Department of Health and Human Services \(HHS\)](#) you can give back to your community, state, and country, by making a difference in the lives of Americans everywhere!

US Food and Drug Administration (FDA)

The HHS Food and Drug Administration (FDA) has been recognized as one of the Federal Government's best places to work. The FDA is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of our nation's food supply, cosmetics, and products that emit radiation.

FDA Work Life Balance

While making an impact at ORA, additional benefits include: ten paid federal holidays, paid annual leave, sick leave, flexible work schedules, affordable healthcare and insurance, attractive retirement programs, mentoring programs, paid training and professional development tools and resources.

Office of Regulatory Affairs (ORA)

The Office of Regulatory Affairs, which includes virtually all the field offices of FDA as well as a significant presence in the Washington DC Metropolitan area, serves as the traditional eyes and ears of the agency through its network of investigators and laboratory analysts. ORA works closely with each of the FDA Centers and with other components of the agency to enforce the laws that protect and advance the public health. ORA protects consumers by maximizing compliance of FDA-regulated products and minimizing risk associated with those products. More than 5,000 ORA professionals work in a range of program areas and locations in 227 offices and 12 laboratories throughout the United States every day to maximize compliance of regulated products and to minimize public health risk. ORA regulates more than 135,000 business establishments that annually produce, warehouse, import, and transport \$1 trillion worth of consumer goods.
