Darin Fong and Associates, Inc (DFA) provides consulting Structural Engineering services for projects spanned over California, Oregon, Arizona and Nevada. Projects range from ground up construction, tenant improvement, seismic retrofits, and remodels. We are looking for an Entry Level Structural Designer to join our team.

**Qualifications:**

- Bachelor’s degree in Civil or Structural Engineering; Masters preferred
- FE/EIT certificate preferred
- 1+ year of experience using computer software programs including RISA 3D, ENERCALC, Retain Pro, Tedds, AutoCAD/Revit and Bluebeam Revu.
- Proficient in the use of a personal computer and Microsoft office (Word, Excel etc.)

**Skills:**

- Ability to work in a challenging yet collaborative environment.
- Proficient in data management
- Ability to take initiative and problem solve.
- Excellent verbal and written communication skills.
- Excellent attention to detail.
- Knowledge of different building materials including wood, concrete, steel and masonry.
- Familiar with 2019 California building code, ASCE 7-16 and 2018 international building code.
- Ability to prepare structural plans and calculations.
- Ability to read architectural plans.
- Ability to effectively communicate with team members regarding relevant design decisions and project status.
