Sitts & Hill is looking for entry level structural engineers. We are looking for passionate and ambitious structural engineers to join our firm and its 60-year reputation for quality and timely project delivery. We highly value our employees and strive to foster a focused work environment and professional growth by providing engineers with the tools, resources and mentoring to further their knowledge and career. We invite you to talk with us about exciting opportunities at Sitts & Hill.

Job Description:

- Will work under the direction of an engineer
- Complete a wide variety of structural engineering analysis and design of wood, masonry, concrete, and steel structures using Excel, EnerCalc, RISA 3D, and other proprietary software
- Create detailed engineering design calculations, details, drawings, and reports
- Prepare specifications, engineer reports and similar technical documents
- Coordinate with different disciplines and work with drafters/designers
- Review and check drawings and submittals
- AutoCAD and Revit drafting of plans, detail, and specifications
- Prepare and adhere to assigned budgets and schedules. Integrate team efforts, review work, set priorities, identify and resolve issue in a timely manner and communicate status to lead engineer
- Be able to devise, organize and ensure engineering arrangements and revisions
- Job will generally be performed in an office environment, but may require travel to visit a client's office or construction job site

Requirements – Qualifications:

- BS degree in Civil Engineering
- Familiarity in Excel, AutoCAD, and EnerCalc. Understanding of Revit
- Excellent oral and written communication skills
- Knowledge of engineering concepts, theories and practices as applied to buildings

Benefits:

- Profit sharing
- Competitive health benefits package
- Paid sick leave, vacation and holidays

Job type: Full-time

Interested candidates are requested to send a resume and cover letter
