

SUMMIT

2023 Summit Engineering Summer Internship Program

Our 9-week internship program includes a Monday-Thursday schedule with curriculum and activities curated by practicing engineers. Get immersed within the division of your focus, working side-by-side engineers to learn and gain knowledge that can only be obtained with hands-on experience. You will become familiar with other engineering disciplines and how they relate on real projects and learn the hard and soft skills unique to engineering professionals. Summit Engineering's Summer Internship Program is designed to prepare you to step confidently into the engineering profession after you graduate.

June 19 - August 17, 2023

Located in Santa Rosa, CA
