

Title: Lead Structural Design Engineer/Project Manager

Description: SEDR Consulting is looking for a structural engineer to join our team! You would be working on projects ranging from single family residential additions, to custom homes, multifamily residential, to commercial, industrial, and unique modular projects.

Responsibilities Include:

- Communicating with clients, architects, contractors, and prime consultants
- Collaborating with internal and external teams, and making site visits
- Preparing submittal documents in the form of plan drawings, connection details etc.
- Responding to comments during design reviews by City or third-party agencies
- Analyzing and designing with common materials such as reinforced concrete, steel, wood, & CMU. PT slab analysis and design is desirable.

Location: Oakland, CA

Full-time (40 hours/week): in office with up to two days work from home based on experience and ability to manage our drafter.

Requirements:

- High-level technical abilities with practical experience
- In-depth understanding of structural analysis
- Detail oriented and strong problem solving
- Ability to work on multiple projects
- High level of integrity and reliability

Software:

- AutoCAD Lite
- BIM, Revit (desirable)
- RISA, RAM, SAP, Enercalc. Software of your choosing so long as it's similar to industry standards such above.

To Apply:
