

December Grads!

Staff Engineer, Structural Engineering Division

Summit Engineering, Inc. is a multi-disciplined design engineering firm located in the heart of beautiful Sonoma County (Santa Rosa, CA). Our Structural, Civil, Wastewater, Electrical and Planning Divisions provide consulting engineering services for winery, high end residential, resort, and other private sector projects.

The Job

Work in a collaborative, fast paced environment, helping design wineries, breweries, high end residential and other interesting projects. This position involves performing engineering calculations and design using technical skills, experience, and engineering judgment to transform concept designs into Construction Drawings and Technical Specifications. You will prepare plans and details in AutoCAD or Revit, and work collaboratively on multiple projects with your colleagues as part of a multi-disciplinary team.

Job Requirements

- B.S. Degree in Civil Engineering or Architectural Engineering with an emphasis in Structural and E.I.T. Certification highly preferred.
- Experience with wood design desired.
- Ability and drive to pursue and obtain a California P.E. license.
- Beginning to intermediate skill with REVIT software.
- Ability to prepare AutoCAD structural plans and details with minimal supervision.
- Competency in working with at least one other structural software program such as RAM, STAAD, ETAB, or RISA.
- Experience on a construction site, either through internship or work experience, highly preferred.
- One to three years of experience in a similar role highly preferred.
- Ability to resolve issues and complete work per deadlines efficiently.
- Ability to work well on a project team.

Company Description

Summit Engineering, Inc. is consistently voted as one of the "Best Places to Work" in the North Bay. We operate on a 9/80 schedule, which means you have every other Friday off. In addition, employees have the flexibility to work from home one day a week (after 90 days of employment).

At Summit, we work hard; we have fun; we have high expectations of ourselves and one another, and help each other to achieve those expectations. We enjoy our work and we like our clients. We dress casually. We treat each other with respect. We have a sense of humor. We are on time. We understand people have full lives. We trust one another. We don't whine, but we do wine. We think this is an awesome place to work.

TO APPLY: Please submit your resume with a cover letter explaining your reason for interest in this position to recruiting@summit-sr.com. For more information, please go to our newly updated website at www.summit-sr.com.
