Position Description: Bevier Structural Engineering has an immediate opening for an entry-level (or above) engineer to join our team. We are an established, fast-paced firm of over 20 years with experience providing engineering services for a wide variety of projects. We would prefer to add someone who has prior Structural/Civil design experience and who will hit the ground running.

Job Requirements:

- B.S. in Architectural Engineering or related field
- 0+ years experience in building and seismic design/drafting with timber, steel, concrete, and masonry
- Proficient in AUTOCAD or REVIT STRUCTURE
- Candidate must be highly organized, possess excellent communication skills, and the ability to work as part of a design team.
