

**Position:** Entry Level Engineer

**Description:** Looking for an energetic person to perform structural engineering and some drafting services in a growing Central Valley firm. Our firm is currently involved with commercial & residential structural engineering projects in a wide variety of industries. Projects span from residential remodels to three-story seismic retrofits. If you are hardworking and enjoy a challenge, you may be the right candidate.

**Candidate Requirements:**

- BS Degree in Structural Engineering
- Familiarity with Adobe Acrobat, Google Sheets / Docs, Revit and CAD
- Strong math skills
- Interpretation of construction and design drawings

**Preferred Experience/Certifications:**

- FE is a plus
- 1-2 years of Revit drafting experience
- 2-3 years of Commercial and Residential Construction Projects
- General understanding of construction techniques in wood, steel, masonry and concrete
- Experience in wood, steel and concrete design

**Personal Skills:**

- Ability to work in a fast-paced environment
- Eager to learn
- Effective communicator
- Ability to work independently with minimal supervision
- Ability to complete tasks in a timely manner
- Ability to work overtime, as needed

Great opportunity, fun atmosphere and lots of room to grow. Please see our website for more information:
