

SPIRE STRUCTURAL ENGINEERING INC.

Spire Structural Engineering Inc. located in Lake Forest is a growing company positioned for future success. Over the past decade, we have delivered the highest quality design and service to our clients.

Our diverse projects utilize all materials and our work covers multiple sectors:

- new structures (commercial, retail, schools, medical and sport venues)
- seismic retrofit
- tenant improvement
- equipment anchorage
- change of use/reuse
- forensic evaluation

We seek engineers who share our values and take pride in their work. We offer competitive salaries, an excellent benefit package that include company-paid medical and dental insurance, a matching 401(k) plan, and a friendly collaborative work environment.

Job Title:

Entry Level Design Engineer

Job Description:

- Perform analysis and design of structural systems for all types of buildings and materials using various building codes.
- Assist project staff in preparing contract documents, calculations and drawings.
- Perform site visits and meet with clients.

Job Requirements:

- Bachelor of Science in Architectural Engineering or Bachelor of Science in Civil Engineering.
- Master's Degree in structural engineering is a plus.
- Familiarity with the California Building Code and related codes.
- Self-motivated and willingness to learn.
- Team player with excellent verbal and writing skills.
- EIT certification.
