

Spire Structural Engineering Inc.

Spire Structural Engineering Inc. is a growing company focused on delivering the highest quality design and services to our clients. Spire is currently located in Lake Forest, California.

Our diverse projects utilize all materials, and we work in multiple sectors:

- | | |
|---------------|---------------------------|
| * Healthcare | * Equipment/anchorage |
| * Schools | * Seismic retrofit |
| * Commercial | * Landscape/site features |
| * Retail | * Forensic evaluation |
| * Industrial | * Sports venues |
| * Restaurants | * Tenant improvements |
| * Residential | * Change of use/reuse |

Spire is currently seeking summer interns and graduating students in the fields of architectural or civil engineering for a design engineering position in our Lake Forest office. We offer competitive salaries for our full time position, an excellent benefit package that includes company-paid medical and dental insurance, a matching 401(k) plan, and a friendly collaborative work environment.

Job Title: Summer Intern and / or Full Time Design Engineer (0 to 3 years of experience)

Job Location: Lake Forest, CA

Job Responsibilities:

- Perform analysis and design of structural systems for all types of buildings and materials using various building codes.
- Assist project staff in preparing contract documents, calculations and drawings.
- Perform site visits and meet with clients.

Qualifications:

- ARCE Jr. Yr or Bachelor's degree in a related field.
- EIT license or plan to take the exam shortly.
- Master's degree in structural engineering is a plus.
- Prior work experience or internship in a related field is a plus.
- Team player with excellent verbal and writing skills.
