

# lounge-scape!

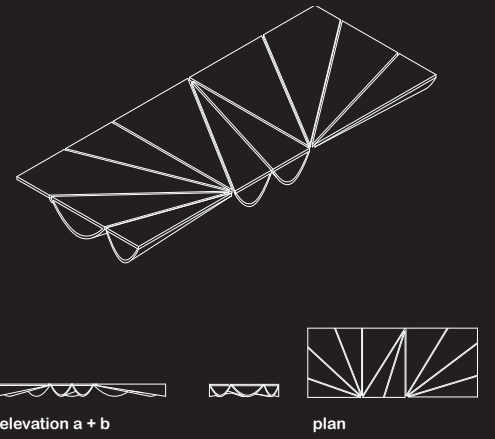

the multi-position adjustable lounge chair

Lounge-scape provides the user with the ability to alter the configuration of their sitting surface. As a result of weighting different points on the surface, the triangulated pattern folds and buckles to accommodate. The lounge scape can be a surface for an individual to sprawl, for a couple to sit together or a few friends to gather in various positions. Take a seat on the rocking topography of the lounge-scape and see what configuration best caters to your comfort!
