*Class sections in parentheses = another lecture given by the same professor which qualifies for a workshop.

MW = Mondays and Wednesdays ~ TR = Tuesdays and Thursdays

This schedule is subject to change. Last updated: **January 18, 2019**

ACADEMIC SKILLS CENTER

What is Supplemental Workshops in Science?

SWS is a campus program that offers student workshops that meet twice weekly throughout the quarter. During the workshop, you will do practice problems, discuss important concepts, develop study strategies, and prepare for tests. You will work closely with other students and earn one unit of elective credit. Workshops start the first week of classes and continue until the last week of classes before finals. You are expected to attend workshop regularly, bring notes, textbooks, and questions, participate in discussions, and work together as a team.

Who leads the workshop?

An upper-division student facilitator who is proficient in the subject leads the workshop. The facilitator guides the discussion, provides supplemental materials, and answers questions. Your facilitator attends every lecture.

Okay! How do I enroll?

Enrollment is only through your Student Center and you must be enrolled in the corresponding lecture.

- **During Initial Enrollment Period:** If you are enrolled in the corresponding lecture (see schedule), you can add a workshop via your Student Center during your initial registration rotation. Logon to the Portal, go to your Student Center, and click "Enroll." Insert 4-digit workshop number (see "Class #" column here). You can also find the workshop in PASS by searching the SCM prefix.
 - Winter quarter Round 1 registration rotations (up to 16 units) begin **November 6th**.
 - Winter quarter Round 2 registration rotations begin **November 30th**.
- **After classes begin:** If space is available and you are enrolled in the corresponding lecture,
 - Come to the ASC (Academic Skills Center 35-112) to obtain a permission number.
 - Logon to your Student Center and use the permission number to Add.
 - The last day to add is Wednesday, **January 16th**. After that date, workshops are closed just like other classes*. Auditing is not permitted.

*A Late Enrollment Appeal process is available for a \$20 fee and may be approved in special cases, if classroom space is available. Ask the workshop facilitator about space. The Late Enrollment Appeal deadline is Thursday, **January 24th**.

*Questions on Registration? Visit the Office of the Registrar webpage at: <http://registrar.calpoly.edu/>

Questions? Call SWS at 805-756-5788 ~ Email: sws@calpoly.edu or see the SWS website at <https://asc.calpoly.edu/>
