The Agricultural Engineering Society Invites your company to attend the

BRAE CAREER FAIR

Thursday, February 6th, 2020 from 8am to 12pm in the Cal Poly Farm Shop

AGRICULTURAL SYSTEMS MANAGEMENT
ASM students combine hands-on experience in agricultural technology with practical training in the business and management aspects of agriculture within a curriculum recognized by the American Society of Agricultural and Biological Engineers.

AREAS OF INTEREST INCLUDE:
Management, Irrigation, Mechanization, Ag Business, Manufacturing, and Processing, Construction Management, and Surveying.

BIORESOURCE AND AGRICULTURAL ENGINEERING
BRAE students are equipped with civil, mechanical, electrical, and agricultural engineering skills developed in a hands-on curriculum. Students are ready to provide engineering solutions to a wide variety of resources and systems as well as managing advanced technologies.

AREAS OF INTEREST INCLUDE:

"Engineering the Future of Agriculture"

Please contact Bradley Livingston at beliving@calpoly.edu for more information and to RSVP
