Provost & Pritchard is looking for people with an interest and passion for addressing the water issues facing the agricultural communities of California. The following career opportunities are now available:

**Assistant Engineer – Full Time EIT and/or Summer Intern**

**Experience:** Entry Level/Intern

To be considered for the position, candidates must demonstrate they are willing and able to be part of a dedicated team of engineering professionals who specialize in serving agricultural entities and irrigation districts throughout California’s Central Valley. Candidates must show an understanding of water resources engineering and be able to apply their knowledge in a practical manner. The work includes design, technical analysis, and innovative solutions to assist clients.

**Requirements:**

**EIT Level:** Bachelor’s Degree in Agricultural or Civil Engineering or related field. EIT Certificate preferred.

**Intern Level:** Must be a student in good standing in a qualified Agricultural, Civil Engineering, or similar program at an accredited 4-year institution.

**Both Positions:**

- Excellent oral and written communication skills required;
- Proven ability to write technical information using appropriate grammar, punctuation and spelling for concise reader-friendliness and clarity;
- Solid understanding of agricultural and/or civil design principles and formulas;
- Strong computer skills (Microsoft Office Suite) with the ability to learn new methods and programs;
- Proficiency in use of AutoCAD and related software;
- Membership in a professional or technical society encouraged.
