Introducing the AES club President Derek Uemura! Derek is a 4th year BRAE major here at poly! He joined the AES club when he was a freshman and has been a part of the club ever since! He was gained interest in the club because he wanted to become more active within the department. He enjoyed the opportunities allowed by the AES club and the ability to build relationships with the faculty as well as the students. The thing he loves most about the AES club is the service that the club provides to the campus community, such as hosting events like the Career Fair, weekly BBQ, and industry exposure to the department. As the AES President, Derek is responsible for weekly officer meetings, monthly general meetings and overseeing and ensuring all the AES events go smoothly/are executed as well as reaching out to new students and inviting them to join the club. During Derek’s freetime, you can find him working on his 1985 K5 Blazer, golfing, searching Craigslist for truck parts and projects, and hunting with fellow officer - Jesse Wilson.

This Week’s Meeting
Finalizing ASABE Robot Design
We will decide on a final design for our ASABE robot and plan out the materials needed to create the design so that we can purchase them. We will also plan out work days to build the robot.

ASABE Robotics Competition
Every year, PAAC builds tabletop robots that accomplish harvesting tasks. We recently received the tentative guidelines for this year’s competition! Click below for the details.
