

Stetson Engineers Inc.

Civil Engineer

Stetson Engineers Inc. is recruiting an entry-level Water Resources Engineer for full time employment at our office in San Rafael, CA. Candidate must have a degree in Civil, Environmental or Agricultural Engineering or another similar field. The successful candidate will have strong analytical skills, including proficiency in building organized and comprehensible spreadsheet calculations and data graphing. Coursework in hydrology and hydraulics are essential, and courses in agricultural irrigation and AutoCAD are a plus. The candidate should also have excellent written and oral communication skills as most tasks will involve writing technical memorandums and reports. Candidates who have passed the EIT and hold a master's degree in a related field are preferred.

Stetson's compensation package for full-time employees includes fully-paid medical and dental group premiums for employee and dependents, pension, life, and disability insurance, as well as a competitive salary.

Resumes and cover letters may be sent to:
