Position: Field Technician

Job Type: Summer Internship
Location: Napa/Sonoma, CA
Tentative Start: June
Tentative End: August/September

ACME Engineering, Inc. has been in business for 20 years. We are a leading civil and agricultural engineering firm servicing the Napa and Sonoma Counties. Our services are specialized in water resources and include designing for irrigation, frost, cooling systems, erosion control, drainage, earthworks, grading, pump and well development as well as automation design. Our goal is to provide the highest level of integrity to our clients in an efficient and expert manner.

We are located in Napa, California, about an hour west of Sacramento. We are looking for someone to join our small, dedicated team who is enthusiastic about providing solutions for our clientele. You must be a motivated individual with prior experience in the agriculture industry.

This position will require working with clients from behind a desk and directly in the field so you will become familiar with the “big-picture” structure of agriculture in Northern California Wine Country. To be a successful addition to our family, we expect someone who is well-organized, attentive and detail-oriented with good communication skills.

- **Job Description:**
  - Automation programming, bench testing and installation
  - Field work to include GPS As-Built documentation, vine-counts
  - Performing construction inspections
  - Drafting

- **Optimum Candidate Skillset:**
  - Pursuing a BS in BioResource and Agricultural Engineering, Crop Science, Agricultural Systems Management or other ag related bachelor's degree
  - Familiar with various irrigation pump systems and water systems
  - Proficient in AutoCAD, Microsoft Excel and Word
  - Comfortable with irrigation automation systems
  - Basic electrical knowledge for low voltage DC
  - Competent working individually in remote areas
  - Able to work long days in the field as necessary
  - Current valid driver's license

For consideration, please email your resume to Jon Terry at JTerry@acmeng.com
