- Knowledge of AutoCAD, Revit and BIM techniques.
- Experience with project management software (Prolog, Procore, HCSS, or similar).
- Experience with scheduling software (MS Project, Primavera P6).

About the Company:

Are you are looking for a company that's an industry leader, one that has a stellar reputation and a large and accessible pool of talent and knowledge to draw upon, and that offers you the opportunity to contribute from your first day and provides the potential for unlimited growth?

For over 40 years, Preston Pipelines, Inc. has been delivering excellence as a General Engineering Contractor in California. We complete close to 200 projects annually for Developers, Contractors and Municipalities in the Bay Area and Central Valley.

Preston Pipelines is a successful, well-managed company that is growing both financially and geographically. New employees enter a dynamic and fulfilling work environment -- one that has kept its small-business atmosphere, even as it continues to expand and grow. If you are bright, energetic, talented, and team-oriented, there is a position for you at Preston Pipelines.

Project Engineer Job Description:

We have immediate openings for the Project Engineer position. Candidates must be

self-starters, productive, and highly organized. A Project Engineer's function is to be a liaison between the Project Manager and the Owner, Engineer, subcontractors, and the field crews. The Project Engineer reviews drawings, ensures conformance to design specifications, oversees subcontract provisions, processes change orders, and prepares progress billings. Additional responsibilities include managing material procurement, tracking work in place, and coordinating with local agencies to secure permits for our work.

Additional information is available at our website at www.prestonpipelines.com
For immediate consideration, please send your resume, cover letter and salary history to raguirre@prestonpipelines.com with the subject line "Sacramento Project Engineer Position".

Preston Pipelines Inc. is a drug-free work environment. EEO employer."
