- ◆ Collaborate with peers within the same and other Condor departments to successfully complete projects.
- ◆ Conduct field work including site investigations and construction monitoring.
- ◆ Provide quality control and technical analysis of tunnel excavation and stabilization works.
- ◆ Prepare plans, technical designs and engineer's estimates for roadways, and civil works projects.
- ◆ Preparation of engineering reports and calculations
- ◆ Assist with proposal scoping and preparation.
- ◆ Provide construction support.

Well qualified candidates will have:

- ◆ Some relevant experience on-the-job or through college course work
- ◆ Bachelor's degree in Civil Engineering or related major required, Master's degree preferred
- ◆ Proficiency in Microsoft Office including Word, Excel, PowerPoint and Outlook as well as Adobe products
- ◆ Knowledge of software suitable for design of tunnel structures including finite element programs
- ◆ Proficiency with slope stability analysis program
- ◆ Advance knowledge of AutoCAD
- ◆ Actively pursuing CA Professional Engineer registration

If you are interested in joining an outstanding team of professionals, please submit a cover letter with salary expectations and a resume to cet.recruiting@condorearth.com.
