

CAL POLY

College of Agriculture, Food
& Environmental Sciences

COLLEGE ENTERPRISES

Enterprises are courses that students can take outside of the classes required for their major. They allow students to gain even more hands-on experience across the spectrum of agriculture, food and environmental sciences and experience real-world situations that prepare them for successful careers. Enterprises vary in length from one quarter to three quarters, but typically are one quarter in duration. Students from any major can enroll in enterprise courses; they are simply “housed” under specific departments.

ANIMAL SCIENCE

Artificial Insemination Enterprise
Animal Shelter Enterprise
Broiler Enterprise
Bull Test Enterprise
Calving Enterprise
Dairy Calf Enterprise
Dairy Challenge Enterprise
Dairy Herd Enterprise
