99,000+
copies of Ag Circle magazine produced by students through the Brock Center for Agricultural Communication since its inception.

The agricultural science major is an excellent way for students to get a taste of the many Learn by Doing opportunities within the College of Agriculture, Food and Environmental Sciences. I took courses from soil science to dairy production, allowing me to experience different fields in agriculture through labs and activities outside of the classroom.”

TYLER WILKINSON, fourth-year agriculture science student
The Brock Center serves as a learning laboratory for students interested in sharing agriculture’s story — from the political arena to the rodeo arena and the produce fields to field offices. The Brock Center is dedicated to producing professional agricultural communicators who make a positive impact on our nation’s most vital industry.

DEPARTMENT HIGHLIGHTS

BROCK CENTER FOR AGRICULTURAL COMMUNICATION

The Brock Center serves as a learning laboratory for students interested in sharing agriculture’s story — from the political arena to the rodeo arena and the produce fields to field offices. The Brock Center is dedicated to producing professional agricultural communicators who make a positive impact on our nation’s most vital industry.

Cal Poly is approved by the California Department of Education’s Agricultural Education Unit and the California Commission for Teacher Credentialing to prepare individuals to teach at the junior high, high school and community college level. Upon completion of the agriculture teacher preparation program at Cal Poly, students are uniquely qualified to teach agricultural science and/or general agriculture anywhere in California — and the U.S.
