AGRICULTURAL EDUCATION AND COMMUNICATION DEPARTMENT

OVERVIEW

The Cal Poly Agricultural Education and Communication Department’s contribution to the agriculture industry is unparalleled in preparing passionate leaders to advance agricultural education and communication.

MAJORS

AGRICULTURAL SCIENCE, AGRICULTURAL COMMUNICATION

MINORS

• AGRICULTURAL COMMUNICATION
• AGRICULTURAL EDUCATION

GRADUATE PROGRAMS

• CREDENTIAL PROGRAM IN AGRICULTURE
• MASTER OF AGRICULTURAL EDUCATION DEGREE

99,000+

copies of Ag Circle magazine produced by students through the Brock Center for Agricultural Communication since its inception.

The agricultural science major is an excellent way for students to get a taste of the many Learn by Doing opportunities within the College of Agriculture, Food and Environmental Sciences. I took courses from soil science to dairy production, allowing me to experience different fields in agriculture through labs and activities outside of the classroom.

TYLER WILKINSON, fourth-year agriculture science student
DEPARTMENT HIGHLIGHTS

BROCK CENTER FOR AGRICULTURAL COMMUNICATION

The Brock Center serves as a learning laboratory for students interested in sharing agriculture’s story — from the political arena to the rodeo arena and the produce fields to field offices. The Brock Center is dedicated to producing professional agricultural communicators who make a positive impact on our nation’s most vital industry.

DEPARTMENT OF EDUCATION-APPROVED

Cal Poly is approved by the California Department of Education’s Agricultural Education Unit and the California Commission for Teacher Credentialing to prepare individuals to teach at the junior high, high school and community college level. Upon completion of the agriculture teacher preparation program at Cal Poly, students are uniquely qualified to teach agricultural science and/or general agriculture anywhere in California — and the U.S.

ON THE JOB

CAREERS

Attorneys
Harvest supervisors
Marketing specialists
Sales coordinators
Social media directors
Teachers

@CALPOLY_CAFES
@CALPOLY_CAFES

Whether teaching the students of California about the application of science, management, fiber and natural resource systems or sharing the compelling story of agriculture, our graduates help shape public opinion about this billion-dollar industry.

Future agriculture teachers explore what it is like to be a veterinarian, agricultural mechanic, horticulturist, agronomist, large and small livestock producer, poultry producer, rancher and agricultural leader. Cal Poly teacher candidates are required to complete a full semester of student teaching in a California high school.

In addition to the department’s long history of leadership and service to the state’s agricultural education profession, it also boasts California’s only agricultural communication major, widely considered one of the country’s premier undergraduate programs. Through a partnership with the university’s Brock Center for Agricultural Communication, plus unique Learn by Doing opportunities, students gain the necessary knowledge to be effective communicators who are fully equipped to promote agriculture and serve the needs of the industry.
