

CAL POLY

College of Agriculture, Food
& Environmental Sciences

COLLEGE OVERVIEW

The Cal Poly College of Agriculture, Food and Environmental Sciences is globally recognized as a center of excellence in applied sciences through responsive scholarship, leadership and service to others.

Since 1901, the college has used a Learn by Doing approach to prepare leaders in sustainable agriculture, food systems, and environmental and life sciences who are equipped to contribute to the diverse needs of society and meet state and global demands.

Adjacent to the San Luis Obispo campus core, nearly 6,000 acres of agricultural production, processing and research land and facilities are available to students. The 3,200-acre Swanton Pacific Ranch in Santa Cruz County, California, provides forest, range and watershed resources for additional research and production. And, the 450-acre Bartleson Ranch in nearby Arroyo

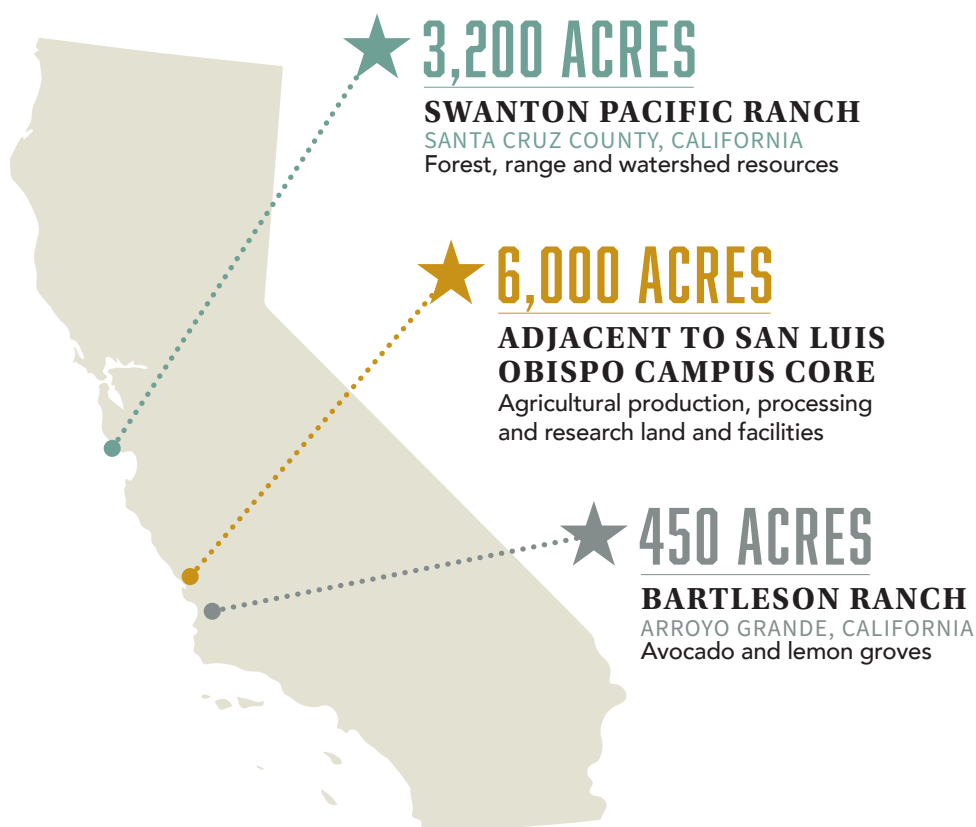

Grande, California, provides avocado and lemon groves for additional research.

Pastures are nestled between the lower slopes of Cuesta Ridge and Highway 1, and orchards, row crops and experimental crops thrive in the rich soil there. The campus farm contains animal units, environmental horticulture facilities, an arboretum, and an irrigation research center.

State-of-the-art facilities for meat processing, food processing, dairy processing and research, and wine production provide students with a learning experience that prepares them for the industries that await them.

OUR MISSION

The College of Agriculture, Food and Environmental Sciences fosters teaching, scholarship and service in a Learn by Doing environment where students, faculty and staff are partners in discovery.

RANKINGS

The College of Agriculture, Food and Environmental Sciences has the fifth-largest undergraduate enrollment in agriculture and renewable resources programs in the nation.

Cal Poly has been named the best public, master's-level university in the West by U.S. News & World Report's annual America's Best Colleges guidebook for 28 straight years.

The Horticulture and Crop Science department was ranked as one of the Top 10 in the nation by the independent website Universities.com in 2020.

The college ranked fourth in the nation for agriculture degrees awarded to Hispanics and No. 4 for all minority students studying agriculture, according to Diverse Issues in Higher Education.

BY THE NUMBERS

4.01

The average high school GPA for incoming first-year students (2020)

4,124

Undergraduates enrolled (2020)

4,750

First-year student applications (2020)

1,000

of those applicants were accepted (2020)

50+

Student club and team opportunities

89%

of graduates go on to jobs directly related to their major

DEPARTMENTS AND UNDERGRADUATE MAJORS

AGRIBUSINESS:

Agricultural Business

AGRICULTURAL EDUCATION AND COMMUNICATION:

Agricultural Science

Agricultural Communication

ANIMAL SCIENCE:

Animal Science

Dairy Science

BIORESOURCE AND AGRICULTURAL ENGINEERING:

Agricultural Systems Management

BioResource and Agricultural Engineering

EXPERIENCE INDUSTRY MANAGEMENT:

Recreation, Parks and Tourism Administration

FOOD SCIENCE AND NUTRITION:

Food Science

Nutrition

HORTICULTURE AND CROP SCIENCE:

Agricultural and Environmental Plant Sciences

NATURAL RESOURCES MANAGEMENT

AND ENVIRONMENTAL SCIENCES:

Environmental Earth and Soil Sciences

Environmental Management and Protection

Forest and Fire Science

WINE AND VITICULTURE

Wine and Viticulture

GRADUATE PROGRAMS

Master of Agricultural Education

Master of Science in Environmental Sciences and Management

Master of Science in Food Science

Master of Science in Nutrition

Master of Science in Agriculture with eight specializations in:

BioResource & Agricultural Systems; Animal

Science; Crop Science; Dairy Products Technology;

Environmental Horticultural Science; Irrigation; Plant

Protection Science; and Water Engineering

CENTERS AND INSTITUTES

Brock Center for Agricultural Communication

Center for Sustainability

Dairy Innovation Institute

Irrigation Training and Research Center

Strawberry Center

Urban Forest Ecosystems Institute
