FOOD SCIENCE AND NUTRITION DEPARTMENT

OVERVIEW

Cal Poly's Food Science and Nutrition Department offers a comprehensive education in food science and nutrition, from the development of new foods to the study of how foods impact health, wellness and disease prevention. The department's exceptional Learn by Doing methodology provides industry-ready graduates with the expertise to nourish the world.

Our students are directly involved in the community, participating in unique hands-on learning opportunities that enhance critical thinking and problem-solving. This active learning environment has earned Cal Poly and the Food Science and Nutrition Department tremendous respect throughout the industry.

The nutrition major offers two concentrations: Applied Nutrition, which is a Didactic Program in Dietetics accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) and Nutrition Science.

APPLIED NUTRITION/DIDACTIC PROGRAM IN DIETETICS provides students with contemporary knowledge, including medical nutrition therapy, and practical skills to prepare them for successful completion of a dietetic internship and a career in dietetics, including the option to become a registered dietitian (RD), clinical dietitian, nutrition consultant and more.

NUTRITION SCIENCE prepares students for post-graduate studies in health-related professions, such as medicine or nursing, by emphasizing a strong background in physical and life sciences as well as human nutrition. Graduates are poised to pursue careers in nutritional biochemistry, molecular nutrition, public health and more.
