## **Applications Now Being Accepted for Learn by Doing Scholar Awards**

The Learn by Doing Scholar Awards recognize faculty members who are advancing Cal Poly's signature pedagogy through research on Learn by Doing. The awards acknowledge scholarly research that goes beyond descriptive examples of Learn by Doing projects and recognizes how faculty are directly contributing to the pedagogical understanding and practice of Learn by Doing. There are two awards each year: the Completed Research Award of \$2,000 recognizes research that has been externally reviewed and shared through publication or presentation, and the Proposed or In-progress Award of \$1,000 recognizes promising research proposals or research in-progress and supports faculty in completing and sharing their findings. All current faculty members are eligible to apply for either award. Individual and team (collaborative) applications are welcome and may include students and non-Cal Poly researchers. Applications are being accepted through 5 p.m. Monday, March 11. Applicants will be notified in May, and winners will be publicly recognized by the president during Fall Conference 2019. Application procedures and criteria for the award categories are available on the Kennedy Library website at <https://lib.calpoly.edu/faculty/learn-by-doing/>. The Learn by Doing Scholar Awards were established in 2014 and are financially supported by the Library Dean's Advisory Council in recognition of the quality, significance and impact of Learn by Doing scholarship.
