Accounting Supervisor — Business Services. Annual salary: \$53,586 with excellent benefits. Position open until filled.

Next Cal Poly Farmers Market Set for June 18

Campus Health and Wellbeing continues to host the Cal Poly Farmers Market on the first and third Tuesdays of the month on Mustang Way (near the University Union and Mott Lawn) from 3:30 to 5:30 p.m. The next market will be held June 18; the market will run from June through November. The effort is a part of Campus Health and Wellbeing's goal to ensure that all students, staff and faculty have access to local, seasonal and nutritious foods.

Volunteers Needed for Cal Poly Thrift

Students, staff and faculty can help make campus move out more sustainably. Move out is one of the most wasteful times of year, as many items that could be reused often get tossed into the landfill bins. This year, Cal Poly Thrift hopes to divert materials from the landfill waste stream, and they need volunteers to help. Shifts are available now through June 15, but help is especially needed Saturday, June 14. Visit <https://signup.com/client/invitation2/secure/2808826/false#/invitation> to sign up to volunteer. Questions? Contact CP Thrift coordinator Darin Son at dason@calpoly.edu.

Catastrophic Leave

Kirsten Cullen, registered nurse in Campus Health and Wellbeing — Health Services, has qualified for catastrophic leave. Those wishing to donate leave credits to help her remain in full-pay status during an extended leave of absence should contact catastrophic leave coordinator Karen Woods at ext. 6-5265 or kwoods04@calpoly.edu to request a donation form.

Gabe England, facilities maintenance mechanic in Facilities Management — Engineering Services, has qualified for catastrophic leave. Those wishing to donate leave credits to help him remain in full-pay status during an extended leave of absence should contact catastrophic leave coordinator Laura McCarren at ext. 6-5212 or lmcarren@calpoly.edu to request a donation form.

Ray Valdez, custodian in Facilities Management — Custodial Services, has qualified for catastrophic leave. Those wishing to donate leave credits to help him remain in full-pay status during an extended leave of absence should contact catastrophic leave coordinator Laura McCarren at ext. 6-5212 or lmcarren@calpoly.edu to request a donation form.

Kelli Medeiros, administrative support assistant in Student Affairs, has qualified for catastrophic leave. Those wishing to donate leave credits to help her remain in full-pay status during an extended leave of absence should contact catastrophic leave coordinator Joette Eisengart at ext. 6-7193 or jeisenga@calpoly.edu to request a donation form.

Cal Poly Report

June 12, 2019

Retirements

Terizza Miller, administrative analyst/specialist, will transition into retirement this summer after 15 years of dedicated service to Cal Poly. She began her Cal Poly career in Payroll but was quickly drawn to Human Resources. Throughout her HR career, Miller has been responsible for a variety of services, including new employee orientation, recruiting, and disability leaves processing; but she is best known as the face of the CSU Educational Fee Waiver Program. Miller has helped hundreds of employees and their dependents achieve their educational goals through this program in which she takes much pride and pleasure. She is also a Cal Poly alumna, who graduated with honors in natural resources management. Prior to her career with Cal Poly, she was a park guide at Hearst Castle. Rumor has it she is one of a few to have taken a dip in the Neptune Pool. Miller is looking forward to traveling and spending more time with her husband and family in retirement. In addition to her incredible knowledge and service, her infectious joy and kindness will be truly missed.

Mechanical engineering Professors **Jesse Maddren** and **Mason Medizade** will retire from Cal Poly this summer. Maddren joined the department in 1999 and revitalized the Heating, Ventilating, Air-Conditioning and Refrigerating Concentration (HVAC&R) program through fundraising and industry partnerships. He was awarded the Provost's Leadership Award for Partnerships in Philanthropy in 2014 for his work in the HVAC&R program. Medizade joined the department in 1984 and has been a leader in the petroleum industry and taught thermal science classes. The mechanical engineering community is grateful for their service and wishes them the best of luck in their future endeavors.

Richard N. Savage, Ph.D., dean of graduate education, will retire from Cal Poly on July 15. Savage will be honored with a retirement reception from 3 to 6 p.m. Thursday, June 13, on the patio between the Science Building (No. 52) and the Baker Center for Science and Mathematics (No. 180). Savage, who has been with Cal Poly since 2003, previously served as department chair for both the Biomedical Engineering and the Materials Engineering departments. He was named director of graduate education in 2013 and was selected as dean in 2017. For more information about the reception, contact Kim Infante at ext. 6-6554 or kinfante@calpoly.edu.

Kathleen Sherman, director of Human Resources Partner Services, is retiring after nearly four years at Cal Poly. Sherman has 27 years of HR management experience, including 10 years with the CSU, first as associate director of academic personnel at CSU Monterey Bay and transitioning to Cal Poly in September 2015 in her current role related to employee and labor relations. Sherman has taken great pride in building positive and collaborative relationships with colleagues that she has partnered with along the way. She will relocate to her hometown of Cincinnati, Ohio, where she and her three furry friends will be closer to family. The campus community is invited to attend a retirement party from 2 to 4 p.m. Thursday, June 13, in the Administration Building (No. 1), Room 133.

Al Hauck, department head of the Construction Management Department, will retire in July after 17 years of service at Cal Poly. Hauck received the Bautzer Faculty University Award from the CSU Division of University Advancement, and the Provost's Leadership Award for Partnership in Philanthropy. He has served 15 years on the board of trustees for the accrediting body American Council for Construction Education (ACCE). Hauck was integral in the private fundraising for the Construction Innovations Center (No. 186); it would not be the building it is today without his dedication. The campus community is invited to attend a retirement party from 2 to 4:30 p.m. Wednesday, June 12, in the Smith Alumni and Conference Center (No. 28).

After 35 years in the Industrial and Manufacturing Engineering Department and the College of Engineering, **Martin Koch** retired March 8. Koch worked half time as a lecturer and half time as an electro-mechanical technician III. He was instrumental in the development and continued growth of Cal Poly's foundry program for metalcasting and the Net Shape Manufacturing Lab. He pioneered the concept of 3D printing at Cal Poly and recently worked to install a state-of-the-art additive manufacturing printer for stainless steel powder. Koch's philanthropic efforts resulted in more than \$1 million in student scholarships, software training, lab improvements and in-kind donations. A reception will be held from 3 to 5 p.m. Thursday, June 13, in the Bonderson Engineering Project Center High Bay (No. 197).
