Retirements

Garry Smith, analyst/programmer for Academic Affairs, Technical Services, is retiring after five years of service to Cal Poly. Smith graduated from the University of Arizona in 1978, earning a degree in business administration and management information systems. Smith started his career in Cupertino with a small computer timesharing company, and then for 12 years wrote code for medical billing, inventory control, fleet maintenance and the State Center Community College District. He spent more than 25 years of his career with a household hardware distributor. Smith moved to the Central Coast eight years ago to retire, but restless and missing the technical challenges, he joined Cal Poly to write ad hoc reports and get the Institutional Research Fact Book online in 2016. In retirement, Smith looks forward to skiing, hiking, sailing and traveling to visit family and friends.
