

# EMERGING MARKETS

## PANEL & NETWORKING SERIES

THURSDAY, FEBRUARY 21 

### CAREERS IN ROBOTICS AND ARTIFICIAL INTELLIGENCE

11:10AM – 12:30PM

BLDG. 124, RM. 117

There's no denying that automation and optimization are driving technological advancement at a rapid pace. As we seek to improve efficiency and interconnectedness, the use of robotics and artificial intelligence will only continue to expand. Come hear from industry experts in a variety of fields, including robotics-assisted surgery and autonomous mobility, as they discuss emerging trends in these industries.

THURSDAY, FEBRUARY 28 

### EMERGING ENVIRONMENTAL CAREERS IN LOCAL, STATE AND FEDERAL GOVERNMENT

11:10AM – 12:30PM

BLDG. 124, RM. 117

As our earth continues to change, our role as stewards of the earth continues to change with it. Join professionals from local, state and federal government positions dedicated to various aspects of sustainability and environmental stewardship. Learn how positions are emerging or adapting to the world today.

TUESDAY, MARCH 5 

### ENTREPRENEURSHIP IN SCIENCE & MATH

11:10AM – 12:00PM

BLDG. 124, RM. 117

If anybody understands setting their aims high, it's entrepreneurs. Meet several founders and consultants who made the choice to use their background in science and math to start their own businesses. They will discuss how they got started, the challenges they faced, and lessons learned. If you're considering entrepreneurship as a possible career path, or even if you're just curious what's possible, this panel event is for you.
