

LAW ENFORCEMENT

TECHNOLOGY ENHANCEMENT DAY

There is no crime committed today that does not involve technology.

California Cybersecurity Institute (CCI) offers cybersecurity training and research for the law enforcement community. The Law Enforcement Technology Enhancement Day (LETED) will allow participants to hear from cyber training experts and attend demonstrations. Attendees will also experience the CCI's live, immersive training environment which is changing the way law enforcement is trained throughout the state.

- | | |
|-----------|---|
| 9 a.m. | Breakfast and Opening Remarks
"Cyber Criminals and the Human Factor" |
