

ENGEO Field Environmental Engineer

Company: ENGEO

Location: Valencia

Position Type: full-time hire, hourly

Position Summary: While working collaboratively with both office and field teammates, you will gain a wide variety of hands-on environmental field experience. You will be encouraged and supported to grow personally and professionally through mentorships and other learning opportunities. The work you perform will directly impact communities by keeping them safe from environmental hazards!

You will primarily be focused on ENGEO's environmental and geotechnical oversight for the decommissioning and environmental remediation of an oil field in Los Angeles County near Santa Clarita, but will be exposed to other projects in your spare time.

"I enjoy the opportunity to work on a variety of projects across different disciplines. ENGEO encourages new staff to hit the ground running by getting involved in dynamic projects early in their careers."

- Monica Kunzel, Staff Environmental Engineer

Primary Responsibilities

- Perform well-defined practical, analytical, and project administrative responsibilities in the field
- Observe work performed by contractors on job sites
- Visit project sites to collect and document environmental soil samples
- Communicate and collaborate with project managers (locally and in other regional offices), clients, subcontractors

Our Ideal Candidate

- Can-do attitude and high attention to detail
- Excellent verbal and written communication skills
- Efficient with time and is an innovative problem-solver
- Adapts to rapidly-changing project needs and deadlines
- Works independently or collaboratively and follows instructions with minimal oversight
- Dedicated to exceptional customer service

Required Qualifications

- Bachelor's degree in Environmental Engineering, or Civil Engineering with an environmental focus.

- Must be able to legally work within the United States and have a clean driving record.
- Must own/have access to a field vehicle (truck/SUV)

Other Desirable Qualifications:

- Master's Degree in Environmental Engineering

ABOUT ENGEO

Who We Are

ENGEO strives to create a positive, family-oriented, and innovative environment, where employees are engaged and excellence-driven. As an ENGEO team member, you will have access to mentorships, international opportunities, fun social events, and generous benefit packages. Here, you'll receive exposure to a wide variety of projects, help to serve those around you, and drive business success.
