**WHO WE ARE:**
Located across four offices in Colorado and Wyoming, we are forward thinking, creative, technically excellent structural engineering and construction firm that is nationally recognized as leaders in:

- Vertically integrated design and construction
- Mass timber structures
- Design for sustainability and embodied carbon optimization
- Design for creative cutting-edge architects

**THE WORK WE DO:**

- Wide variety of work in commercial, residential, and industrial structures.
- Work with all materials, traditional and innovative, including mass timber, heavy timber, steel, concrete, masonry, rammed earth, and structural glass
- Work across a broad geographic area, mostly in the Rocky Mountains, many sites have considerable structural challenges – high snow loads, high seismic loads, and steeply sloped mountainous sites
- Work distinguished by a broad palette of expanded services including steel detailing, designer-led design/build, and construction management
- Leader in high-grade 3D modeling for over 26 years
- Leading experts in embodied carbon modeling, tracking, optimization, and carbon sequestration

**WHO YOU ARE:**
Motivated graduates with:

- B.S. degree in Architectural, Structural, or Civil engineering with a structural emphasis
- M.S. degree or working toward your master’s degree
- A sound knowledge of fundamental principles of structural engineering
- Enthusiasm and a passion for solving problems

**THE WORK YOU WOULD DO:**

- Work in tight-knit teams on a wide variety of project types and building systems
- Drawing and modeling – an essential part of the design process
- Perform structural analysis and design calculations by hand and by using a variety of proprietary and in-house software tools
- Communicating directly with external clients
- Visiting job sites to observe construction

CAMIE BEAGAN
Chief People Officer
WE ARE LOCATED ACROSS FOUR OFFICES ALONG THE ROCKY MOUNTAIN RANGE, EACH WITH SOMETHING UNIQUE TO OFFER.

GOLDEN, COLORADO
Golden is just west of Denver, nestled in the foothills of the Rockies. A short drive to skiing as well as the urban energy of Denver, Golden is home to the Colorado School of Mines.

LOVELAND, COLORADO
In Northern Colorado, Loveland is the gateway to Rocky Mountain National Park, and a center for both high tech industry and the arts. Our Loveland office is in the heart of downtown.

BUFFALO, WYOMING
Located at the foot of the Big Horn Mountains, Buffalo is a beautiful, quintessentially western small town with endless outdoor activity opportunities.

CARBONDALE, COLORADO
Carbondale is a small town a short drive down the Roaring Fork Valley from Aspen and surrounded by all the magnificent riches of the Colorado Rockies, including skiing, biking, and world class fly fishing.
