STUDENT ENGINEER PROGRAM – SUMMER 2022 INTERNSHIPS A Message from Recruitment Services

Date: September 7, 2021

The Los Angeles Department of Water and Power (LADWP) is currently accepting applications for its Summer 2022 Student Engineer Program (SEP).

The goal of the SEP is to provide college engineering students an experiential job training opportunity, including career mentoring, theoretical and technical instruction, and complete project-related, infrastructure work tasks. Student Engineers will be paired with LADWP engineers and work in technical teams within Water, Power, and Joint systems of the organization.

The SEP eligibility requirements and employment application are available at: <http://www.ladwp.com/sep>. The deadline to submit a completed application is December 17, 2021. Successful applicants will be notified of their selection between January and February 2022. Work assignments will be arranged to commence upon conclusion of the student's academic year. For questions about the program, please send an email to studentengineer@ladwp.com.

Please post this announcement on bulletin boards to share this information with staff without access to computers.
