Assistant Engineer

Are you ready to take on a new challenge and elevate your career to the next level? The offices of Michael K. Nunley & Associates, Inc. (MKN) is seeking a highly motivated Assistant Engineer who is excited to become part of a growing, highly respected water resources engineering and planning firm. We are a rapidly growing, team-oriented and highly motivated group with offices in Arroyo Grande, Bakersfield, Fresno, Ventura, and Irvine. This position can be located at any one of our five California locations. MKN believes in the important balance between work and personal life and strongly supports our staff in achieving this goal. Currently, we will be looking to hire an Assistant Engineer in our Arroyo Grande, Ventura and Bakersfield offices in the late Spring or Summer of 2021.

**Duties:**
This position will split time between field and office work. Duties will include but are not limited to creating field observations and reports; managing quality assurance including testing, reporting and outcomes; modeling of water and wastewater systems; assisting in the design of water and wastewater infrastructure; research; coordinating with clients, subconsultants, vendors and staff; preparing proposals and reports. You will grow in developing relationships with clients, collaborating with fellow MKN team members across California, participating in professional societies such as ASCE, and achieve great professional and personal development success.

**Expectations:**
Excellent written and oral communication skills are required, as well as eagerness and enthusiasm to serve in both field and office positions on a wide variety of planning and engineering projects throughout California.

**Requirements & Experience:**
Position requires a B.S. in Civil, Agricultural or Environmental Engineering. Applicant should identify any prior experience working in AutoCAD as well as InfoWorks, WaterCAD, SewerCAD, BioWIN, and other modeling programs.

**Compensation & Benefits:**
Compensation between $32.00 and $37.00 per hour based on experience and demographic location. The firm offers competitive benefits and most importantly an opportunity for mentorship by a senior engineering team with water/wastewater/recycled water infrastructure experience on major regional projects throughout the western US.

Please email your resume to cyamate@mknassociates.us. For additional information regarding MKN please refer to our website, www.mknassociates.us.

*Candidates must be authorized to work in the United States; MKN does not sponsor foreign nationals for employment-based visas or permanent residence.*
