Subject: Opportunities for General Roadway Civil Engineering Intern or Permanent New Grad

Diablo Engineering Group is a Civil Engineering company that was founded in 2014 as a corporation by Jennifer Harmon, PE and Garrett Gritz, PE – both are Cal Poly alumni. Bringing collectively over 50 years of experience, services are primarily associated with the planning and preparation of final design plans for civil and transportation engineering focused infrastructure improvements, with a special emphasis on delivering expert project management to public agencies throughout Alameda and Contra Costa counties. Jennifer and Garrett have vast transportation planning and final design engineering experience, including managing multi-agency and multi-discipline teams of consultants through the design and approval processes. Foundational to the services provided by Diablo Engineering Group are delivering clients with exceptional personal service.

Jennifer and Garrett have learned firsthand the importance of promoting and implementing win-win partnerships between clients, strategic partners, community members and employees. These effective partnerships, combined with technical and personal communication across a project team, create the necessary synergy and teamwork that are needed to complete successful projects, including:

- Streetscape, roadway, and interchange designs
- Fully accessible pedestrian and bicycle facilities
- Precise grading/utility/improvement plans for urban plazas and civic spaces
- Performing/facilitating community engagement meetings
- Intersection bulb-outs, including traffic signals, pedestrian lighting and photometric analysis.

The next chapter of Diablo Engineering Group is to find the right people to join our team. We have been fortunate to accomplish our goals in the first 5 years of creating Diablo Engineering Group. It has been exciting and rewarding. We know that you want to be recognized for your passion, desire, work ethic, technical skills and personal attributes. Let’s find the time to discuss how you could creatively grow your career with us. Please call us or email us your resume if you fit into one of these categories:

1. Recent college graduate from Cal Poly’s Civil Engineering program
2. Junior or Senior in Cal Poly’s Civil Engineering program interested in a paid internship

One position is currently open and will remain open until filled. Only the most qualified and confident candidates will be considered. Diablo Engineering Group is an equal opportunity employer.

Sincerely,

Jennifer Harmon, PE                          Garrett Gritz, PE
