

**What is going to happen:** A Thesis Defense by Foster Josef Heifetz Campbell

**What it's called:** *A Comparison of Software Packages for Hydraulic and Hydrologic Analysis and Design*

**Where it is:** 13-202

**When it is:** 3 p.m.

**Why you should go:** Because Mr. Campbell is a nice person (who will have chips and guacamole at his presentation).

The photo above has absolutely nothing to do with Mr. Campbell's defense, but it is likely where he will be once he has completed his thesis.
