FULL-TIME OPPORTUNITY

Los Angeles Department of Transportation
100 S Main St, 10th Floor, Los Angeles, CA 90012
213.972.8470

Transportation Engineering Associate (Campus Recruitment)
Minimum Starting Salary: $82,153

DUTIES:

The duties of the position as a Transportation Engineering Associate may include but are not limited to:

- Perform professional engineering work in investigating and analyzing street traffic conditions to determine the need for traffic control measures
- Review street improvement plans to determine the need for traffic control devices
- Prepare plans, specifications and estimates for installation of traffic signal systems and channelization
- Prepare planning and research studies to look at existing and proposed traffic control measure and methodologies with the assistance of Computer-Aided Design (CAD), Geographic Information Systems, modeling software and project management programs

MINIMUM REQUIREMENTS:

1. Graduation from or within 9 months of receiving a degree from an accredited four-year college or university with a degree in engineering, which includes at least 9 semester units or 12 quarter units of transportation engineering, civil engineering and/or computer science courses; or
2. Possession of a valid Engineering-In-Training Certificate recognized by the State of California Board of Professional Engineers, Land Surveyors, and Geologists.

Notes

1. Candidates from the eligible list are normally appointed to vacancies in the lower pay grade positions.
2. The current salary range is subject to change. You may confirm the starting salary with the hiring department before accepting a job offer.

If you missed us at campus recruitment, please follow the steps below to receive updates on upcoming employment opportunities:
