ROSS BUCKLEY
Political Science, '10

Ross Buckley serves as legislative advocate for the Personal Insurance Federation of California (PIFC) and represents PIFIC's

member companies before the California State Legislature and California Department of Insurance (CDI) on personal lines insurance issues including earthquake, drones and emerging technology. Prior to joining PIFIC, Buckley held a variety of legislative positions for Assembly Member Katcho Achadjian, ending his state service as chief of staff. Buckley has also been involved in numerous local, state and federal political campaigns. He currently serves on the Cal Poly Political Science Alumni Advisory Board.

JAMIE MARAVIGLIA
English, '05

Maraviglia began her career at the Clark Center for the Performing Arts where she eventually became the director of marketing

and operations. After leaving the Clark Center, she joined Verdin, a SLO-based marketing firm where she crafted and executed award-winning campaigns for a variety of private businesses, non-profits and governmental organizations. Maraviglia is currently a digital marketing strategist for Cal Poly's University Marketing department and is working on modernizing the university's digital presence. She is heavily involved with her community and serves on the board of the Clark Center, as well as on the City of Arroyo Grande's Parks and Recreation Commission. Maraviglia is also one of the top national fundraisers for the March of Dimes.

MIKE ROMEY
Art and Design, '99

Mike Romey is a Walt Disney Imagineer. He works in the Technology Studio at Walt Disney Imagineering (WDI) and serves the art and

media pipeline. His responsibilities include developing, deploying and evangelizing production tracking tools that assist project coordination efforts for future ride and attraction venues within the parks and resorts. Prior to joining WDI, he worked in the industry as a pipeline manager, software developer, CG supervisor, EffectsTD, and art director delivering innovative technology solutions for film, broadcast, production, gaming, mobile and big data analytics in mission critical environments for some of the highest profile work in the industry.
