Before turning “Power” on please check:
- bass & treble controls are at 12 o’clock
- mic, aux & wireless volumes are down
- proper connections are made

Instructions for use:
1. Turn on “Power” switch
2. While speaking into Wireless Mic slowly bring Volume up to desired level
   (never walk or stand directly in front of speaker with any microphone)
3. Adjust “Aux” level to desired volume (if used)
