DPO Assessment Measures and Results

Follow-up of the Impact of actions taken:

No corrective actions were necessary because all assessment measures consistently exceeded their established targets. The department's ongoing collaboration with industry partners through CCCE, career fairs, company information sessions, and recruiting events has contributed to maintaining outstanding employment and internship outcomes. Continued efforts to engage additional CMAC member companies are expected to further expand opportunities for students.

Description of any revisions made to the Degree Program assessment tool:

No revisions were made to the assessment tools during this assessment cycle. The existing measures, including Career Services Graduate Status Reports, graduating senior exit surveys, and CCCE recruiting activity records, continue to provide reliable and meaningful evidence for evaluating the achievement of Degree Program Objective #6. Additional data collection efforts are needed to provide more direct evidence of student engagement with industry prior to graduation.
