College of Science and Mathematics

Subject: Distribution of College-Based Fee Revenues for 2011-12
College of Science and Mathematics

This memo conveys the distribution of College Based Fee revenues for 2011-12. I want to extend my appreciation to the Student Advisory Committee to the Dean on Budget, College Based Fees and Related Matters as well as the students and members of the faculty and staff who composed the department College-Based Fee Committees. Thanks also to the College of Science and Mathematics Student Council for monitoring the process. The College-Based Fee has encouraged a partnership and engagement among our students, faculty, and staff in advancing our college, departments, and programs and securing our future. Again, thanks to all involved.

The original proposal for the College-Based Fee, overwhelmingly approved by College of Science and Mathematics students in March, 2002, stated the following priority needs for support:

- Instrumentation and Equipment.
- Faculty Recruitment and Development
- Student Research
- Access to Classes

Since this time, around 15 million dollars has been distributed to the departments and School of Education in our College for these general purposes. This has made a huge difference in everything we do and is particularly visible in the quality of our student-faculty research programs and the equipment we have in our laboratories.

Distribution of fee revenues is based on need, nature and quality of proposal, and student headcount by department. The ultimate goal is for each department or school, over time and regardless of size, to achieve a clearly recognizable level of distinction because of the College-Based Fee.

Projected College-Based Fee Revenues for 2011-12

2011-12 Projected Revenues: \$2,100,000

Summary of Proposals

Proposals from the departments are shown in the following table.

<u>CSM CBF 2011-12 Proposals</u>	<u>Requested</u>
Biological Sciences Department:	\$350,000
Department of Chemistry and Biochemistry:	\$146,500
Kinesiology Department:	\$263,247
Liberal Studies Department	\$ 20,000
Mathematics Department:	\$150,000
Physics Department:	\$200,500
Statistics Department:	\$ 32,800
School of Education	\$ 19,955
Total:	\$1,183,002

CSM CBF 2011-12 Allocations

The allocations below are subject to change depending on changes in the California economy and budget of the California State University. If further deterioration is experienced, whatever is left of the following funds (that are largely focused on student research) might be redirected for access to classes. If a miraculous recovery occurs, we will allow departments to revise proposals and distribute College Based Fee in proportions more consistent with the original purposes. These allocations were made to allow departments to fund summer projects in student-faculty research and other priorities during the year.

ALLOCATIONS OTHER THAN FOR ACCESS TO CLASSES

Biological Sciences Department:	\$140,000
Department of Chemistry and Biochemistry:	\$100,000
Kinesiology Department:	\$125,000
Liberal Studies Department:	\$ 20,000
Mathematics Department:	\$ 80,000
Physics Department:	\$ 90,000
Statistics Department:	\$ 30,000
School of Education	\$ 20,000

Sub-Total: \$605,000

Approximate Funds for Access to Classes: \$1,495,000

This CBF resource will be combined with regular state money available for Lecturers to fund classes and laboratories. Department chairs have presented their Lecturer projections and the total funds will be distributed to accommodate the priority needs of students in obtaining needed classes and progressing to degrees. All requests including those in CBF proposals have been included.

Total \$2,100,000

RECONSTITUTION OF STUDENT ADVISORY COMMITTEE TO THE DEAN

The College of Science and Mathematics Student Council will be the Student Advisory Committee to the Dean. The Council will ensure through club representatives and at large members that each department and school is represented. The Council will consult with the dean on curricular and procedural matters, budget, College Based Fee, and other relevant issues. This Committee does not replace, however, the *College* College Based Fee Committee constituted each spring with representatives from each department/school.

Considerations in Expenditure of Fee Revenues

- 1. Departmental Autonomy:** The departments will receive a dollar allocation and are authorized to spend it consistent with the intent of their proposals. They can re-prioritize or change aspects of the proposal with appropriate internal consultation.
- 2. Appropriate Consultation:** Each department should determine the extent of consultation required in implementation of the proposal. I would assume that minor deviations will be allowed the department chair without consultation, but major deviations, such as substitution of an expensive piece of equipment for another or a major change in priorities, will be subject to consultation with the department College-Based Fee committee. Complete departure from a proposed program should be discussed with the dean who may consult with the College Student Advisory Committee.
- 3. Immediate but Phased Expenditures:** It is important that students recognize benefits of the College Based Fee as soon as possible each year.
- 4. Expenditures to Benefit College of Science and Mathematics Majors:** The College-Based Fee is paid by and should primarily benefit students majoring in the College of Science and Mathematics. Because of the nature of the College, this is not completely possible but it is important that the departmental expenditures be directed for maximum benefit to our majors.
- 5. Efficiency and Value in All Expenditures:** In both our college-based fee revenues and our state budget, we should strive to achieve value and efficiency in our expenditures.

2011-12 College- Based Fee Procedures and Timetables

- **Summer 2011**
 - Tuesday, May 31: 2011-12 College-Based Fee allocations finalized.
- **Fall 2011:**
 - Early in Fall 2011, establish the College of Science and Mathematics Student Council with the responsibility of being the Student Advisory Committee to the Dean.
 - Begin forming department and school College Based Fee Committees.
- **Winter 2012:**
 - Department and school committees consult with students, faculty, and staff about needs and priorities for use of College Based Fee revenues in 2012-13. Proposal development.
- **Spring 2012:**
 - Tuesday, May 1: Department and School CBF proposals due to the dean's office as well as names of student representatives who will present the proposals. This group will constitute the College College Based Fee Committee.
 - Tuesday, May 8: CBF Committee meets. Departments and schools present proposals. Dean consults with College Committee, department/school presenters and faculty advisors.
 - Tuesday, May 15 or 22 : Dean presents proposal for distribution of CBF revenues to the College CBF Committee.
 - Tuesday, May 29: 2012-13 CBF allocations finalized.

Final Note: This proposal is offered prior to knowing the final state budget to the CSU and could have to be modified in the case of an unanticipated cut.
